

WHAT IS CLAIMED IS:

1. A wet wipe for improving skin health comprising a wipe substrate and a liquid formulation, the liquid formulation comprising a Yucca species extract and a broad spectrum antimicrobial.

2. The wet wipe as set forth in claim 1 wherein the Yucca species extract is selected from the group consisting of Yucca 70 liquid, 100% Yucca Schidigera powder, and 50% Food Grade Yucca powder.

3. The wet wipe as set forth in claim 1 wherein the liquid formulation comprises from about 0.0001% (by total weight of the formulation) to about 5% (by total weight of the formulation) Yucca species extract.

4. The wet wipe as set forth in claim 1 wherein the liquid formulation comprises from about 0.01% (by total weight of the formulation) to about 1% (by total weight of the formulation) Yucca species extract.

5. The wet wipe as set forth in claim 1 wherein the broad spectrum antimicrobial is a botanical extract.

6. The wet wipe as set forth in claim 1 wherein the broad spectrum antimicrobial is selected from the group consisting of alcohols having from one to about 6 or 7 carbon atoms per molecule, triclosan, triclocarban, p-chloro-m-  
5 xylenol, benzalkonium chloride, chlorohexidine gluconate, hexachlorophene, and combinations thereof.

7. The wet wipe as set forth in claim 1 wherein the broad spectrum antimicrobial is present in the liquid

formulation in an amount of from about 0.0001%(by total weight of the formulation) to about 0.1% (by total weight of  
5 the formulation).

8. The wet wipe as set forth in claim 1 wherein the broad spectrum antimicrobial is present in the liquid formulation in an amount of from about 0.0001%(by total weight of the formulation) to about 0.01% (by total weight of  
5 the formulation).

9. The wet wipe as set forth in claim 1 further comprising an additional component selected from the group consisting of anti-acne actives, antifoaming agents, antifungal actives, antiseptic actives, antioxidants  
5 astringents, colorants, deodorants, film formers, fragrances, moisturizers, chelating agents, skin protectants, sunscreen actives, solvents, and combinations thereof.

10. A wet wipe for improving skin health comprising a wipe substrate and a liquid formulation, the liquid formulation comprising a Yucca species extract and a natural broad spectrum antimicrobial.

11. The wet wipe as set forth in claim 10 wherein the Yucca species extract is selected from the group consisting of Yucca 70 liquid, 100% Yucca Schidigera powder, and 50% Food Grade Yucca powder.

12. The wet wipe as set forth in claim 10 wherein the liquid formulation comprises from about 0.0001% (by total weight of the formulation) to about 5% (by total weight of the formulation) Yucca species extract.

13. The wet wipe as set forth in claim 10 wherein the liquid formulation comprises from about 0.01% (by total weight of the formulation) to about 1% (by total weight of the formulation) Yucca species extract.

14. The wet wipe as set forth in claim 10 wherein the natural broad spectrum antimicrobial is a botanical extract.

15. The wet wipe as set forth in claim 10 wherein the natural broad spectrum antimicrobial is selected from the group consisting of aloe vera, folic acid, calendula flower, echinacea purpurea tops, gota kola extract, chlorophyll,  
5 phytoplenolin extract, chamomile flower, blood root, prickly ash bark, green tea leaf, oregano leaf, peppermint oil, cinnamon bark, eucalyptus leaf, lavender oil, bio-saponin concentrate, olive leaf extract, black walnut green hulls, clove leaf, thyme herb, grapefruit seed extract, vegetable  
10 glycerin, and combinations thereof.

16. The wet wipe as set forth in claim 10 wherein the natural broad spectrum antimicrobial is present in the liquid formulation in an amount of from about 0.0001%(by total weight of the formulation) to about 0.1% (by total weight of  
5 the formulation).

17. The wet wipe as set forth in claim 10 wherein the natural broad spectrum antimicrobial is present in the liquid formulation in an amount of from about 0.0001%(by total weight of the formulation) to about 0.01% (by total weight of  
5 the formulation).

18. The wet wipe as set forth in claim 10 further comprising an additional component selected from the group consisting of anti-acne actives, antifoaming agents,

antifungal actives, antiseptic actives, antioxidants  
5 astringents, colorants, deodorants, film formers, fragrances,  
moisturizers, chelating agents, skin protectants, sunscreen  
actives, solvents, and combinations thereof

19. A method for improving skin health comprising  
contacting the skin with a wet wipe capable of reducing the  
growth rate of Gram negative bacteria and yeast on the  
surface of the skin while not substantially affecting the  
5 growth rate of Gram positive bacteria, the wet wipe  
comprising a wipe substrate and a liquid formulation, the  
liquid formulation comprising a Yucca species extract.

20. The method as set forth in claim 19 wherein the  
Yucca species extract is selected from the group consisting  
of Yucca 70 liquid, 100% Yucca Schidigera powder, and 50%  
Food Grade Yucca powder.

21. The method as set forth in claim 19 wherein the  
Yucca species extract is present in the formulation is an  
amount of from about 0.0001% (by total weight of the  
formulation) to about 5% (by total weight of the  
5 formulation).

22. The method as set forth in claim 19 wherein the  
Yucca extract is present in the formulation in an amount of  
from about 0.01% (by total weight of the formulation) to  
about 1% (by total weight of the formulation).

23. A method for improving skin health comprising  
contacting the skin with a wet wipe capable of reducing the  
growth rate of Gram negative bacteria and yeast on the  
surface of the skin while not substantially affecting the  
5 growth rate of Gram positive bacteria, the wet wipe

comprising a wipe substrate and a liquid formulation, the liquid formulation comprising a Yucca species extract and a natural broad spectrum antimicrobial

24. The method as set forth in claim 23 wherein the Yucca species extract is selected from the group consisting of Yucca 70 liquid, 100% Yucca Schidigera powder, and 50% Food Grade Yucca powder.

25. The method as set forth in claim 23 wherein the liquid formulation comprises from about 0.0001% (by total weight of the formulation) to about 5% (by total weight of the formulation) Yucca species extract.

26. The method as set forth in claim 23 wherein the liquid formulation comprises from about 0.01% (by total weight of the formulation) to about 1% (by total weight of the formulation) Yucca species extract.

27. The method as set forth in claim 23 wherein the natural broad spectrum antimicrobial is a botanical extract.

28. The method as set forth in claim 23 wherein the natural broad spectrum antimicrobial is selected from the group consisting of aloe vera, folic acid, calendula flower, echinacea purpurea tops, gota kola extract, chlorophyll,  
5 phytoplennolin extract, chamomile flower, blood root, prickly ash bark, green tea leaf, oregano leaf, peppermint oil, cinnamon bark, eucalyptus leaf, lavender oil, bio-saponin concentrate, olive leaf extract, black walnut green hulls, clove leaf, thyme herb, grapefruit seed extract, vegetable  
10 glycerin, and combinations thereof.

29. The method as set forth in claim 23 wherein the natural broad spectrum antimicrobial is present in the liquid formulation in an amount of from about 0.0001%(by total weight of the formulation) to about 0.1% (by total weight of  
5 the formulation).

30. The method as set forth in claim 23 wherein the natural broad spectrum antimicrobial is present in the liquid formulation in an amount of from about 0.0001%(by total weight of the formulation) to about 0.01% (by total weight of  
5 the formulation).
